

Home base for the KTV is Westlake, Ohio, a suburb of Cleveland

## Koyo is so much more than just bearings

In fact our goal is to go even further by offering services, training and engineering support that far exceeds our customers' expectations.

Our state-of-the-art 40-foot training vehicle was designed and equipped to provide world-class bearing education and training ... at your convenience.

### State-of-the-Art Mobile Classroom:

Inside the temperature-controlled classroom, students will have access to critical information about proper bearing installation and removal, lubrication, specifying, failure prevention and analysis... all in a quiet, comfortable environment.

- Accommodates up to 25 students
- Full Range of Audio/Visual Equipment
- Climate controlled environment
- Hands-on Displays & Demonstrations

### Advanced On-Site Bearing Training:

- Design / Application
- Bearing Performance
- Proper Bearing Handling & Storage
- Proper Mounting Procedures
- Lubrication Practices
- Bearing Analysis & Solutions

## SOLUTIONS for Demanding Applications

# KTV Koyo Training Vehicle

### Factory Led Hands-On Training:

Koyo personnel provide hands-on training that's fun and practical, including an installation bench where students can perfect their skills at mounting and removing bearings.

In addition to our standard courses we can customize a curriculum geared to your specific needs such as: Aerospace, Agri-Con, Automotive, Electric Motor Repair, Machine Tool, Power Sports, Steel, or Wind.

- Presented by Koyo Engineers & Sales Personnel
- Customized Curriculum Tailored to Your Specific Industry or Product Needs
